<p>Alan Pride</p> <p>PMA Consulting</p>	<p>Effective Building Operation</p>
---	--

This month's chapter program will discuss "Effective Building Operation" throughout a building's Life Cycle major events including a) meeting owner requirements, b) design basis, limitations, and reviews, c) O&M submittals, d) commissioning, test and balance, e) variation from basis of design, f) final acceptance, and g) identification of rehabilitation projects.

Alan K. Pride currently serves as the Vice President of PMA Consulting, Inc. Alan is a certified commissioning agent along with having training in O&M and condition assessments. Alan received his B.S. in Physics from the Citadel and continued to become a Qualified Naval Nuclear Engineer. Alan has held numerous positions throughout his career including Assistant Chief Test Engineer, Project Manager Submarine Noise and Vibration Monitoring Program, and President of Pride Consulting, Inc. Mr. Pride's current work includes commissioning, O&M training and condition assessments for the US Department of State facilities (Embassies, etc.).

The discussion will also incorporate historical and ongoing tasks to address the following operational elements: 1) establishing the baseline performance; 2) identifying Key Performance Indicators (KPIs); 3) identifying Failure Clusters (such as building control and monitoring systems and work order data), and 4) last but not least, managing the Political and Emotional responses to Logical solutions.

Professional Development Certificates (1 hour) **will be provided at the Lunch meeting. The lunch meeting should conclude by 1 p.m.**

2019-20 Chapter Programs

Good programs are what make the Chapter meetings a success. Last year your participation (attendance) was great. It is directly attributable to the quality of programs. Input is continually needed from everyone (both members and non-members) for topics (and potential presenters) that are of interest. Efforts will be made to address all needs (residential, commercial, nuclear, renewable, etc.), so do not be ashamed to ask.

Contact [Kay Thrasher](#) or any current Board member with suggestions.
